The Natural Way to Feed Today

Badminton Feed 'n' Fibre is a complete feed—a combination of long fibre and an oat-free mix for all horses and ponies in light to medium work or at rest. The added natural long fibre aids digestion and gut action. The correct balance of fibre and feed for a healthy diet has been mixed together in a bag, so you are ready to go.

Features	Benefits
<ul style="list-style-type: none"> • Added natural long fibre. • Oat-free, non-heating • Full complement of vitamins and minerals. 	<ul style="list-style-type: none"> • Aids digestive well-being. • Can assist in maintaining calm temperament. • Supplies a horse's daily requirements, when fed at recommended levels.

Feeding Recommendations

Feed in conjunction with grazing or conserved forage as required. The table gives a daily allowance and may be used as a guide for horses and ponies in light to medium work. Quantities will vary depending on quality of forage available, and weight, temperament, condition and exercise level of your horse or pony.

Height (hh)	11.2	12.2	13.2	14.2	15.2	16.2	17.2
Feed 'n' Fibre (kg)	1.5—2	2—2.5	2.5—3	3.5—4	4—4.5	5—5.5	5.5—6

Fibre in horses' diets is key to their well-being as horses evolved to graze on forage for up to 17 hours a day and their digestive system is designed to handle this. Fibre takes longer to chew than concentrates, and chewing produces saliva which moistens and softens the food; it also helps regulate the acidity in the stomach. Fibre also helps keep everything moving through the digestive tract as well as producing heat from fibre digestion to help keep your horse warm.

Our Fibre Rich Range of complete feeds offers you a choice of product forms.

- Feed 'n' Fibre—Long fibre in a traditional mix.
- Easy Rider— Long fibre with a small feed pellet.
- High Fibre Complete—A chunky nugget of fibre and feed, which can be fed from the ground.
